EDUCATION

Federal University of Technology Owerri (FUTO)
B.tech Mathematics

Nigeria
Dec 2017 - Till Date

EXPERIENCE

Phono
Frontend Developer(Contract)

Remote (New York, USA)
Nov 2022 - January 2023

- Wrote the documentation for the libraries used for the project ,
- I built a custom design layout from scratch for the the MVP,
- I collaborated with the backend engineer to build a dynamic layout for real-time music production.

FUTO, Mathematics Department
Software Engineer

Owerri, Nigeria
January 2023 - Present

- Built a dynamic result management software that reduced score errors by more than 50%,
- I implemented a dynamic system that reduced student-to-lecturer physical interaction,
- Made easy access to results and transcripts and made school results more transparent.
- Integrated a Payment system to reduce manual labour and create a virtual database for all the MATHEMATICS Students

SKILLS

Developer: Javascript, Typescript, C#, MERN, Next js, Chakra UI, CSS and other frontend technologies.
Database: Mongo DB, Prisma, Azure and Firebase
Cloud: Azure, AWS

PROJECTS

CGPA calculator *React, Chakra Ui, Firebase, Javascript.* <https://the-grader.netlify.app/>
This is a webapp that helps you to automatically calculate your university grades by just receiving your scores as an input. It is secured with Firebase Auth, hence only registered users can access their grades from any device they login with.

Mememify *React, Javascript, Imgflip-API, CSS* <https://memegenerator-dusky.vercel.app/>
This is a webapp that suggests a list of 100 meme images for you to customize, you can also upload your preferred picture and give it your desired meme captions

Quick-Meet *Agora-API, React, Javascript, Chakra UI* <https://quick-meet-eight.vercel.app/>
This is a video chat web app with great video quality that allows you interact with peers who you let in to the video chat, it can be used to host emergency online meetings.

VOLOUNTEER

Microsoft Learn Student Ambassador

Microsoft

I organize hackathons, bootcamps, and create learning opportunities for students in my school community. I do this with other student Ambassadors, we educate students and teach them how to use Microsoft Technologies like Azure.
